

**PURPOSE AND STRUCTURE OF  
THE PORTFOLIO BUDGET  
STATEMENTS**

## Purpose of the Portfolio Budget Statements

The purpose of the 2007-08 Portfolio Budget Statements (PB Statements) is to inform Senators and Members of Parliament of the proposed allocation of resources to Government outcomes by agencies within the portfolio. Agencies receive resources from the Annual Appropriations Acts, special appropriations (including standing appropriations and special accounts), and revenue from other sources.

A key role of the PB Statements is to facilitate the understanding of proposed annual appropriations in Appropriation Bills No. 1 and No. 2 2007-08 (or Appropriation Bill [Parliamentary Departments] No. 1 2007-08 for the parliamentary departments). In this sense the PB Statements are Budget related papers and are declared by the Appropriation Acts to be 'relevant documents' to the interpretation of the Acts according to section 15AB of the *Acts Interpretation Act 1901*.

The PB Statements provide information, explanation and justification to enable Parliament to understand the purpose of each outcome proposed in the Bills.

As required under section 12 of the *Charter of Budget Honesty Act 1998*, non-general government sector entities are not consolidated into the Commonwealth general government sector fiscal estimates and accordingly, these entities are not reported in the PB Statements.

## Structure of the Portfolio Budget Statements

The Portfolio Budget Statements (PB Statements) are presented in three sections, aligned in several ways to the Budget Papers, as outlined below.

## **Departmental and Administered Distinction**

Under the Australian Government's accrual-based budgeting framework, and consistent with Australian Accounting Standards, transactions that agencies decide (departmental transactions) are separately budgeted for and reported on from transactions agencies make on behalf of others (administered transactions). This ensures that the transactions decided by agencies are reported separately from other transactions in their accounts.

### **Departmental**

Revenues, expenses, assets and liabilities in relation to an agency or authority that are controlled by the agency. Departmental expenses include employee and supplier expenses and other administrative costs, which are incurred by the agency in providing its goods and services.

### **Administered**

Revenues, expenses, assets and liabilities that are managed by an agency or authority on behalf of the Government according to set Government directions. Administered expenses include subsidies, grants and personal benefit payments and Administered revenues include taxes, fees, fines and excises.

## **Appropriations in the accrual budgeting framework**

In the accrual budgeting framework, separate annual appropriations are provided for:

- Departmental price of outputs appropriations: representing the Government's funding for outputs from agencies;
- Departmental capital appropriations for investments by the Government for either additional equity or loans to agencies or payments from previous years' outputs;
- Administered expense appropriations: for the estimated administered expenses relating to an existing outcome, a new outcome or a Specific Purpose Payment to the States and Territories; and
- Administered capital appropriations: for increases in administered equity through funding non-expense administered payments.

Special appropriations fund the majority of payments from the Consolidated Revenue Fund (especially those that are entitlement driven or involve transfers to State governments). The appropriation framework is discussed further in the introduction to Budget Paper No. 4, *Agency Resourcing 2007-08*.

## **Components of agency financial statements**

Reporting requirements for budgeted financial statements differ between agencies (for example, according to whether the agency participates in administered transactions). Therefore, not all agencies are required to report against all schedules.

The budgeted financial statements contain the estimates prepared in accordance with the requirements of the government's financial budgeting and reporting framework, including the principles of the Australian Accounting Standards and the Statements of Accounting Concepts, as well as specific guidelines issued by the Department of Finance and Administration. They show the planned financial performance for the 2007-08 Budget year and each of the forward years from 2008-09 to 2010-11. The statements also include the estimated actual for 2006-07 for comparative purposes.

The schedules included in the budgeted financial statements for 2007-08 are as follows.

<b>Schedule</b>	<b>Purpose</b>
<b>Budgeted departmental income statement</b>	Shows the expected financial results for the agency. Identifies full accrual expenses and revenues, which highlights whether the agency is operating at a sustainable level.
<b>Budgeted departmental balance sheet</b>	The financial position of the agency. It helps decision makers to track the management of assets and liabilities.
<b>Budgeted departmental statement of cash flows</b>	Provides information on the extent and nature of cash flows by categorising them into expected cash flows from operating activities, investing activities and financing activities.
<b>Budgeted departmental statement of changes in equity — summary of movement</b>	This statement represents the movement of parent entity (the Commonwealth) interest in the agency. The statement has been prepared to reflect the net operating result, movements of capital return and additional capital injections from the Commonwealth.
<b>Departmental capital budget statement</b>	Shows all planned departmental capital expenditure (expenditure on non-financial assets), whether funded through capital appropriations for additional equity or borrowings, or from funds from internal sources.
<b>Departmental property, plant, equipment and intangibles — summary of movement</b>	Shows budgeted acquisitions and disposals of non-financial assets during the Budget year.
