Explanatory notes

Introduction

Immigration Update is produced by the Program Statistics and Monitoring Section of the Department of Immigration and Citizenship (DIAC). It presents a summary of the latest statistics available which are relevant to the formulation and assessment of immigration policies and procedures.

Tables in Section 1 combine data on persons granted permanent residence visas in Australia with data on persons arriving with the intention of living here permanently. Tables in Section 2 contain statistics of persons arriving in or departing from Australia and are based on data from the Travel and Immigration Processing System (TRIPS) supplemented from Incoming or Outgoing Passenger Card information. The statistics are consistent with those published by the Australian Bureau of Statistics (ABS).

Tables in Section 3 contain statistics on the various categories of temporary movement to and from Australia. Section 4 provides statistics on the numbers of temporary entrants and New Zealanders in Australia.

Categories of movement

For statistical purposes the following categories of movement are used:

- permanent movement - persons migrating to Australia and residents departing permanently;
- long term movement - temporary visa holders arriving and residents departing temporarily with the intention to stay in Australia or abroad for twelve months or more, and the departure of temporary visa holders and the return of residents who had stayed in Australia or abroad for twelve months or more;
- short term movement - travellers whose intended or actual stay in Australia or abroad is less than twelve months

Definition of "Settler"

Settlers comprise persons arriving in Australia who hold permanent visas, regardless of stated intended period of stay, New Zealand citizens who indicate an intention to settle, and those who are otherwise eligible to settle, for example overseas-born children of Australian citizens.

Migration and humanitarian programs

The Migration (non-Humanitarian) Program is made up of Family Stream, Skill Stream and Special Eligibility migrants. The Humanitarian Program is made up of Refugee, Special Humanitarian and Special Assistance migrants.

Eligibility categories

Eligibility categories reflect both the Migration and Humanitarian Programs' permanent visa sub-classes under which settlers entered Australia. In addition there are a number of categories of settlers which are not covered by the Migration or Humanitarian Programs.

The Family Stream consists of a number of categories under which a potential migrant can be sponsored by a relative who is an Australian citizen or a permanent resident of Australia. The Family Stream comprises the following categories:

- Spouse;
- Prospective marriage;
- Child;
- Adoption;
- Parent (meeting the balance of family test);
- Aged dependent relative;
- Last remaining relative;
- Orphan dependent relative;
- Special need relative; and
- Interdependency.

From 1 July 1997 the Concessional category was moved to the Skill Stream and renamed Skilled Australian Linked it was then renamed Skilled Australian Sponsored from 1 July 1999 to reflect changes to the requirements such as age and work skills as well as various sponsor attributes.

The Skill Stream component of the migration program is designed to contribute to Australia's economic growth. It consists of a number of categories for prospective migrants where there is demand in Australia for their particular occupational skills, outstanding talents or business skills. These categories are:

- Skilled-Australian Linked (previously known as Concessional Family to 30/6/97 then as Australian Linked to 30/6/99) allows Australian citizens or residents to sponsor their parents, brothers, sisters, nephews, nieces and non-dependent children. Applicants must meet a points test which takes into account their age and work skills as well as various sponsor attributes;

- ❑ Skilled Designated Area Sponsored (Regional Linked from 1/11/96 to 30/6/99) allows sponsorship of skilled relatives to designated areas of Australia. Both applicants and sponsors must satisfy certain criteria;
- ❑ Employer Nomination for highly skilled persons nominated by employers in Australia who have been unable to find or train skilled workers in Australia for the position. This includes the Labour Agreement category for persons who are nominated by an employer or organisation under a Labour Agreement, Regional Headquarters Agreement or the Regional Sponsored Migration Scheme and who have the skills, qualifications, and experience required;
- ❑ Business Skills for successful business persons with established skills in business who have a genuine commitment to owning and managing a business in Australia;
- ❑ Distinguished Talent for persons who have outstanding records of achievement in a profession, occupation, the arts or sport; and
- ❑ Independent for unsponsored applicants whose education, skills, English language ability and ready employability will contribute to the Australian economy.
- ❑ Skilled – Independent Regional (Provisional) visa is for skilled persons who are unable to meet the passmark for a permanent visa and wish to live and work in a regional or low population growth metropolitan area in Australia.

There is also a Special Eligibility category which caters for other types of visaed settler arrivals within the Migration Program but not included in the Family or Skill Streams. These are:

- ❑ Former citizen of Australia;
- ❑ Former resident of Australia; and
- ❑ Family of New Zealand Citizen for dependents of New Zealand citizens who have settled or intend to settle permanently in Australia.

The Humanitarian Program has two parts: an offshore resettlement program for persons overseas, and onshore protection for those persons already in Australia who arrived on temporary visas or in an unauthorised manner, and who claim Australia's protection.

The offshore resettlement program comprises three categories:

- ❑ The Refugee Program which provides resettlement to Australia for persons outside

their home country subject to persecution in their home country;

- ❑ Special Humanitarian Programs (SHP) which comprise the In-country Special Humanitarian Program for persons suffering persecution within their own country, and the Global Special Humanitarian Program for persons who have left their country because of substantial discrimination amounting to a gross violation of human rights; and

In addition there are some categories not covered by the Migration or Humanitarian Programs. These are:

- ❑ New Zealand Citizens which refers to the arrival of New Zealand citizens under the Trans-Tasman Travel Arrangement; and
- ❑ Other which refers primarily to the arrival in Australia of children born to Australian citizens overseas. It also includes residents of Cocos (Keeling) Islands, Norfolk Island etc, and persons granted Australian citizenship overseas.

Temporary entry

Temporary Entry refers to the type of visa held. The three main categories of Temporary Entry are:

- ❑ Students
 - persons approved for entry into Australia for a specific period for the purpose of undertaking formal or non-formal study;
- ❑ Temporary Residents
 - persons approved for non-permanent entry into Australia of economic, social, cultural and sporting benefit, eg top managers, executives, specialists and technical workers, diplomats and other personnel of foreign governments, temporary business entry, working holiday makers, entertainers etc;
 - Temporary residents (including long-stay business visa holders) are generally sponsored by an Australian business or organisation to work in Australia as a skilled paid employee. Their initial stay in Australia is generally for more than 3 months but not more than 4 years; and
- ❑ Visitors
 - persons approved for entry into Australia for a temporary stay as tourists, business visitors, for the purpose of visiting relatives or

obtaining medical treatment. Visitors are not normally permitted to engage in employment in Australia;

- Short-stay business visas are in this category because their principal purpose of journey is more closely aligned to visitors than to temporary residents. These visas are granted to persons on the basis that their principal purpose of journey is a short stay (up to 3 months) business visit. Their visit must be consistent with their business background and relate to their existing activities.

Occupation

This data item describes a traveller's stated usual occupation prior to arrival in Australia and does not necessarily reflect occupation in Australia.

Statistics showing settler arrivals by occupation have been classified using the *Australian Standard Classification of Occupations (ASCO) Second Edition*, which has replaced the First Edition from 1 July 1997.

In the Second Edition, the number of major groups has increased from eight to nine. Because of this, comparisons between current and previous time periods cannot be shown.

The major groups are:

- Managers and Administrators
- Professionals
- Associate Professionals
- Tradespersons and Related Workers
- Advanced Clerical and Service (Workers)
- Intermediate Clerical, Sales and Service
- Intermediate Production and Transport
- Elementary Clerical, Sales and Service
- Labourers and Related Workers

The tables in this publication include a number of categories which are not strictly 'occupation groups'; for example Not in Employment, Not in the Labour Force, and Not Stated. Not in Employment refers to persons who have stated that they have been unemployed without providing an adequate occupation description. Not in the Labour Force includes children, persons stating 'home duties' as their occupation, students and retired persons. Not Stated refers to those persons whose occupation description is not sufficiently specific to enable the allocation of precise ASCO codes.

For further information about ASCO, and for copies of the classification, please contact the Australian Bureau of Statistics.

Stock data rebase

Stock data is derived from reported arrivals without a reported departure or other change of status such as change to a permanent visa. Although very small in number, there are cases where departures or status changes that occur are not linked to the arrival record. Such cases result in persons being incorrectly reported in stock data. These incorrect cases accumulate over time, especially for high volume groups such as tourists.

A decision has been made, that for visaed movements, cases with an arrival date ten years or more before the reference ("as at") date for stock data will no longer be reported.

Due to the different policy arrangements for, and considering the permanent settlement component, of New Zealand citizens, this revision has not been made for New Zealand citizen stock data.

Classification of countries and regions

Statistics in this publication are classified to regions and countries based on the ABS *Standard Australian Classification of Countries (SACC)*. The classification is based on the concept of geographic proximity. It groups neighbouring countries into broad geographic areas on the basis of their similarity in terms of social, cultural, economic and political characteristics.

The country classification used in this report is listed on page 54. In the tables in this publication some minor groups have been combined due to space limitations. For further information about SACC and for copies of the classification please contact the ABS.

Australia and External Territories

Following amendments to Section 17(a) of the Acts Interpretation Act 1901 - 1973 effective 1 July 1992, the territories of Christmas Island and Cocos (Keeling) Islands now form part of geographic Australia. The Jervis Bay Territory has always been a territory in its own right, and following self-government for the ACT it is no longer included with the ACT for statistical purposes. These three territories are classified as the ninth state/territory of Australia.

Australian External Territories comprises the statistical units of Norfolk Island and Other Australian External Territories.

Former Yugoslavia

Separate data for the federation of Serbia and Montenegro has been available since July 1998, Montenegro declared its independence on the third of June 2006. Prior to July 1998 the Former Yugoslavia nfd component was a substantial proportion of total Former Yugoslavia. Consequently the separate figures for the individual countries were likely to be significantly understated.

Former USSR

The separate figures for component countries of the former USSR are likely to be understated and should be used with caution.

Ethiopia and Eritrea

Caution is also required when using data for Ethiopia. This figure may include arrivals born in Eritrea since settlers who reported Ethiopia as their country of birth were coded as such, despite the fact that they may have been born in what is now called Eritrea.

Additional data

The Program Statistics and Monitoring Section offers a range of tables not published in this report, upon request. Statistics on settler arrivals can be cross-tabulated with the following data items:

- Country of birth
- Country of citizenship
- Country of last residence
- State/territory of intended residence
- Sex
- Age
- Migration category
- Occupation
- Applicant type (primary, secondary)

More complex requests for data and requests for multiple years do incur a charge.
