## Explanatory notes

### Definition of “Settler”

Settlers comprise persons arriving in Australia who hold permanent visas, regardless of stated intended period of stay, New Zealand citizens who indicate an intention to settle, and those who are otherwise eligible to settle (eg. overseas-born children of Australian citizens).

### Migration and Humanitarian Programmes

The Migration (non-Humanitarian) Programme is made up of *Family Stream*, *Skill Stream* and *Special Eligibility* migrants. The Humanitarian Programme is made up of *Refugee*, *Special Humanitarian* and *Special Assistance* migrants.

### Eligibility categories

Eligibility categories reflect both the Migration and Humanitarian Programmes' permanent visa sub-classes under which settlers entered Australia. In addition there are a number of categories of settlers which are not covered by the Migration or Humanitarian Programmes.

The **Family Stream** consists of a number of categories under which a potential migrant can be sponsored by a relative who is an Australian citizen or a permanent resident of Australia. The Family Stream comprises the following categories:

- Spouse;
- Prospective marriage;
- Child;
- Adoption;
- Parent (meeting the balance of family test);
- Aged dependent relative;
- Last remaining relative;
- Orphan dependent relative;
- Special need relative; and
- Interdependency.

From 1 July 1997 the Concessional category was moved to the Skill Stream and renamed Skilled Australian Linked it was then renamed Skilled Australian Sponsored from 1 July 1999 to reflect changes to the requirements such as age and work skills as well as various sponsor attributes.

From 1 July 2006 the Dependent child extended eligibility category was included in settler arrivals data.

The **Skill Stream** component of the migration programme is designed to contribute to Australia's economic growth. It consists of a number of categories for prospective migrants where there is demand in Australia for their particular occupational skills, outstanding talents or business skills. These categories are:

- ❑ *Skilled-Australian Sponsored* (previously known as Concessional Family to 30/6/97 then as Australian Linked to 30/6/99) allows Australian citizens or residents to sponsor their parents, brothers, sisters, nephews, nieces and non-dependent children. Applicants must meet a points test which takes into account their age and work skills as well as various sponsor attributes;
- ❑ *Skilled Designated Area Sponsored* (Regional Linked from 1/11/96 to 30/6/99) allows sponsorship of skilled relatives to designated areas of Australia. Both applicants and sponsors must satisfy certain criteria;
- ❑ *Employer Nomination* for highly skilled people nominated by employers in Australia who have been unable to find or train skilled workers in Australia for the position. This includes the Labour Agreement category for people who are nominated by an employer or organisation under a Labour Agreement, Regional Headquarters Agreement or the Regional Sponsored Migration Scheme and who have the skills, qualifications, and experience required;
- ❑ *Business Skills* for successful business persons with established skills in business who have a genuine commitment to owning and managing a business in Australia;
- ❑ *Distinguished Talent* for people who have outstanding records of achievement in a profession, occupation, the arts or sport; and
- ❑ *Independent* for unsponsored applicants whose education, skills, English language ability and ready employability will contribute to the Australian economy.

There is also a **Special Eligibility** category for other types of visaed settler arrivals within the Migration Programme but not included in the Family or Skill Streams. These are:

- ❑ Former citizen of Australia;
- ❑ Former resident of Australia; and
- ❑ Family of New Zealand Citizen for dependents of New Zealand citizens who have settled or intend to settle permanently in Australia.

The **Humanitarian Programme** has two components: an offshore resettlement

programme for persons overseas, and onshore protection for those people already in Australia who arrived on temporary visas or in an unauthorised manner, and who claim Australia's protection.

The offshore resettlement programme comprises three categories:

- ❑ The *Refugee Programme* which provides resettlement to Australia for people outside their home country subject to persecution in their home country;
- ❑ *Special Humanitarian Programmes* (SHP) which comprise the In-country Special Humanitarian Programme for people suffering persecution within their own country, and the Global Special Humanitarian Programme for people who have left their country because of substantial discrimination amounting to a gross violation of human rights; and
- ❑ the *Special Assistance Category* (SAC) which embraces groups determined by the Minister for Immigration and Multicultural and Indigenous Affairs to be of special concern to Australia and in real need, but who do not fit within other humanitarian categories. This programme also assists those internally and externally displaced people who have close family links in Australia. This category was closed during the 2000-01 programme year.

In addition there are some categories not covered by the Migration or Humanitarian Programmes. These are:

- ❑ *New Zealand Citizens* which refers to the arrival of New Zealand citizens under the Trans-Tasman Travel Arrangement; and
- ❑ *Other* which refers primarily to the arrival in Australia of children born to Australian citizens overseas. It also includes residents of Cocos (Keeling) Islands, Norfolk Island etc, and persons granted Australian citizenship overseas.

### **Classification of Countries and Regions**

Statistics in this publication are classified to regions and countries based on the ABS *Standard Australian Classification of Countries* (SACC). The classification is based on the concept of geographic proximity. It groups neighbouring countries into broad geographic areas on the basis of their similarity in terms of social, cultural, economic and political characteristics.

The country classification used in this report is listed on page 65. In the tables in this

publication some minor groups have been combined due to space limitations. For further information about SACC and for copies of the classification please contact the ABS.

### **Australia and External Territories**

Following amendments to Section 17(a) of the Acts Interpretation Act 1901 - 1973 effective 1 July 1992, the territories of Christmas Island and Cocos (Keeling) Islands now form part of geographic Australia. The Jervis Bay Territory has always been a territory in its own right, and following self-government for the ACT it is no longer included with the ACT for statistical purposes. These three territories are classified as the ninth state/territory of Australia.

Australian External Territories comprises the statistical units of Norfolk Island and Other Australian External Territories.

### **Former Yugoslavia**

Separate data for the federation of Serbia and Montenegro has been available since July 1998, Montenegro declared its independence on the third of June 2006. Prior to July 1998 the *Former Yugoslavia nfd* component was a substantial proportion of total Former Yugoslavia. Consequently the separate figures for the individual countries were likely to be significantly understated.

### **Former USSR and the Baltic States**

Because, *Former USSR and the Baltic States nfd* accounts for a high proportion of total Former USSR and the Baltic States, the separate figures for component countries are likely to be understated and should be used with caution.

### **Ethiopia and Eritrea**

Caution is also required when using data for Ethiopia. This figure may include arrivals born in Eritrea since settlers who reported Ethiopia as their country of birth were coded as such, despite the fact that they may have been born in what is now called Eritrea.

### Additional data

The Programme Statistics and Monitoring Section offers a range of tables not published in this report, upon request. Statistics on settler arrivals can be cross-tabulated with the following data items:

- Country of Birth
- Country of Citizenship
- Country of Last Residence
- State/Territory of Intended Residence
- Sex
- Age
- Migration Category
- Occupation
- Applicant Type (Primary, Secondary)

More complex requests for data and requests for multiple years of data do incur a charge.

### Symbols and abbreviations

The following symbols or abbreviations are used throughout this publication:

excl	=	excluding
na	=	not available
nec	=	not elsewhere classified
nei	=	not elsewhere included
nfd	=	not further defined
nya	=	not yet available
p	=	preliminary

## Statistical publications

The Programme Statistics and Monitoring Section produces a number of regular and special publications providing statistics which are relevant to the formulation and assessment of immigration policies and procedures. Some of the publications referred to below, are available from the Department's website: <http://www.immi.gov.au/media/statistics> along with other migration information.

Migrant data can also be obtained from the Australian Bureau of Statistics (ABS). See the ABS website <http://www.abs.gov.au> for more details.

### Regular publications

- Immigration Update* (produced biannually)
- Australian Immigration Consolidated Statistics* (ceased production after 1999-2000)
- Settler Arrivals* (produced annually)
- Emigration* (re-commenced 2005-2006)
